First edition. - The book by Filippus Baelde (1632-1672) is divided into three parts: the first is a description of coastal India, the second treats Ceylon, and the third is a discussion of Indian religion. In the first two parts he describes the towns, their trade, the surrounding countryside, and the people, and he devotes a large amount of space and much detail to the rise of Portuguese power in the various parts of India and to the later Dutch conquest of many of those places. In part two, for example, he uses about 150 pages to tell the story of the Portuguese conquest of Ceylon, Portuguese relations with the king of Kandy, Dutch negotiations with Kandy beginning with Spilbergen's visit in 1602, the Dutch conquest of Portuguese Ceylon, the VOC's continued difficulties with Kandy, the problems of governing Ceylon, and the attempts to reform the church there. Baldaeus' description of Hindu religion in part three depends heavily on Abraham Roger's work but also contains new information gained from his own observations' (*Lach, Asia in the making of Europe, III, p.494*). The fine plates and illustrations, in excellent impressions, represent the cities of Surat, Cochin, Tuticorin, Negapatam, Masulipatam, Galle, Negombo, etc., natives, costumes, ceremonies, churches, fighting scenes, fortifications, elephant-hunt, etc. - A most important printed source for the establishment of Dutch power in Ceylon and south India. - *A very fine copy.*

He travelled extensively along the Malabar coast. In 1673 he left the employment of the company and started a private medical practice in Damao, at that time a Portuguese colony. Six months later, early in 1674, he was arrested by the Inquisition and taken to Goa, where he was imprisoned for two years. He was then shipped to Lisbon, but released in the following year on condition that he should return immediately to France. .. It proved a considerable success , particularly in Protestant Europe, where it ran to numerous editions. Although long regarded purely as a work of propaganda, recent research has testified to its accuracy (Howgego p.304/305). It includes also details of his stay in Bahia, Brazil. His account of the Inquisition was still forbidden in Portugal in 1769. - A nice copy.

First and only edition. - 'Daniel Havart travelled to the Indies for the Zeeland chamber of the VOC in 1672. He stayed there from 1672 to 1685 on the Coromandel coast. His book is a standard work on the Coromandel coast and the VOC factories there' (*Landwehr, VOC, 559*). For a long time the Dutch East India Company was the most powerful trader in India before it became an English colony. This book gives much valuable information on the Dutch on the long eastern coast of India. 'Havart's *Op- en ondergang van Coromandel* is still an indispensable source for the study of Coromandel and Golconda, in the latter half of the seventeenth century. While it is sometimes mentioned in modern bibliographical and historiographical lists and essays, scholars of the twentieth century have generally ignored it or have used it only superficially. Not only does Havart add considerably to general knowledge of the region, as for example by his excellent description of Hayatnagar, but he also provides a corrective to the usual, and overly heavy, reliance of modern scholars on the writings of Tavernier and Thévenot. Havart's Dutch contemporaries were better informed' (*Lach, Asia in the making of Europe, III, p.1094*).
