*Second edition*, one of two editions printed in 1699, including a list of works by Southerne and Aphra Behn at the foot of the title. - *Oroonoko* was originally a short novel by Aphra Behn (1640-1689), published in 1688. It is one of the earliest English novels and one of the earliest by a woman. Dealing with the tragic love of its hero, an enslaved African in Surinam in the 1660s, and the author's

own experiences in the colony. Her story was used by Thomas Southerne (1660-1746) for a tragedy, with a foreword in which Southerne expresses his gratitude to Behn and praises her work. The Epilogue was written by William Congreve. The play was a huge succes and continued to be played throughout the eighteenth century. 'Southerne changed the unalloyed tragedy into a split-plot tragicomedy. Besides adding a comic

subplot - in which two London sisters seek husbands of fortune in Surinam- Southerne changed Imoinda's race from black to white; replaced lengthy digressions about Coramantien and Surinamese Indian society with a single comic subplot; allowed Oronoko to kill the lieutenant governor, who lusts after Imoinda; and permitted Oronoko to kill himself at the end' (*Rodriguez, Encyclopedia of world slavery, p.482*). This dramatic adaption is significantly responsible for the anti-slavery forces. - (Scattered light brownning and moderate foxing). - Very rare.

First published in 1839 with the title: Voyage a Surinam. - Benoit was born in 1782 in Antwerp and died in Brussels in 1854. His stay in Surinam was a private enterprise, probably in 1831. Judging from the many journeys he made into the interior and the time he spent among the Indians and Bush negroes and in the town of Paramaribo, he must have stayed in Surinam for many months. He does not refrain from pointing out the many difficulties, dangers and privations he managed to overcome during that period. Benoit belonged to the opponents of the abolition of slavery. He cannot avoid picturing the harsh and cruel daily existence of the slaves and explaining why they run away, revolt against their masters and are filled with hatred towards the whites. When describing their

dance-festivals, he says that the need to find an outlet for their misery accounts for the frenzy with which they throw themselves into it. He produced a large number of charming and meticulous drawings during his stay. This very attractive set of views of Surinam include fine scenes of native life, showing costumes, dwellings, ceremonies, festivals, recreations, interiors, utensils, etc. of the negro- and Indian population and the Dutch planters. There are also several views of Paramaribo, plantation houses, a slave auction, and public buildings in Surinam. A remarkable collection of handsome lithographed views depicting plantation life in Surinam.

Paul Erdmann Isert (1756-1789), Danish doctor in Christiansborg on the Gold Coast, was the first European explorer of Ashanti. He gives an account of the Danish settlements and considerable details of the customs of the natives. In 1786, on his way back, he describes the voyage from Africa to the Danish West Indies with a cargo of 452 blacks who rose against the whites on the second day at

sea, with a resulting loss of 34 of their number and 2 of the crew wounded after a heated battle. He visited St. Croix, St. Thomas, St. John, Guadeloupe and Martinique. 'Because of the sensational nature of its contents, it has been heavily drawn on by writers on the slave traffic for nearly a century and a half' (Ragatz p. 226-27).

Official document to grant freedom to a slave in Surinam. Dutch slave-trade was abolished in 1814 and slavery in 1863. The slaves in Surinam by paying redemption money, by themselves or by their masters, could get a conditional release. Mostly domestic slaves were manumissioned as a reward for their loyal services. The slaves were given names by the government, often they were named after the plantation where they worked. Reinhard Frans Cornelis van Lansberge was governor-general in Surinam from 1859 till 1867. - (Skilfully backed with very thin Japanese paper). - *Very scarce 'document humain'*.

'The iconography of Manhattan Island represents the result of a two-fold purpose: to collect, to condense, and to arrange systematically and in just proportion, within the confines of a single work, the facts and incidents which are of the greatest consequence and interests in the history of New York, with special reference to its topographical features and the physical development of the island; and to illustrate this material by the best reproductions obtainable of important and interesting contemporary maps, plans, views, and documents; in other words, to produce a book dealing with the physical rather than with the personal side of the city's history, which shall be at the same time useful and interesting to the student of history, the antiquarian, the collector, and the general public' (*Preface*).
